Acacia dielsii occurrence map.
Occurrence map generated via Atlas of Living
Australia (<https://www.ala.org.au>).

Family

Fabaceae

Distribution

Occurs in a belt from the Murchison R. (E of Kalbarri) to the Newdegate area (which is c. 50 km due E of Lake Grace), W.A.

Description

Shrub 0.5–2 m high. **Branchlets** terete or weakly angled, glabrous, occasionally tomentulose or ±sericeous. Phyllodes inclined to erect, slender, straight to curved, terete, 1–3.5 cm long, (0.5) 0.7–0.9 (–1.2) mm diam., rounded-obtuse, mucronate, glaucous when young, ageing pale green, glabrous, striate by 14–18 slightly raised nerves. Inflorescences simple, 2 per axil; peduncles (0) 2–4 (–7) mm long, slender, glabrous; basal bracts persistent, cucullate; heads globular, 2.5–3.5 mm diam., loosely 8–17-flowered, golden. Flowers 5-merous; sepals 1/3–2/3-united, rarely free; petals 1/2–3/4-united. Pods breaking readily into 1-seeded, fusiform articles at the narrow constrictions between the seeds, to 3 cm long, 1.2–1.8 mm wide, thin, sparingly appressed-puberulous. Seeds longitudinal, narrowly oblong-elliptic, 2.5–3 mm long, slightly glossy, tan, mottled, exarillate.

Habitat

Grows in sandy, loamy and lateritic soils, in open scrub and shrubland.

Specimens

W.A.: c. 4 km W of Newdegate on road to Lake Grace, E.M.Canning WA/68 7407B (PERTH); Mt Madden, J.Goodwin 224 (PERTH); 9 km NNE of Bruce Rock on road to Merredin, B.R.Maslin 6473 (CANB, PERTH, Z); Murchison R., c. 15 km E of North West Coastal Hwy, M.Whiting & J.Coxon (PERTH00684031).

Notes

There is considerable variation in some of the characters, especially in the vestiture of the branchlets and degree of union of the perianth parts, *fide* R.S.Cowan & B.R.Maslin, *Nuytsia* 10: 250 (1995).

Acacia dielsii together with *A. nivea* and *A. obesa* constitute the 'A. dielsii group', *fide* R.S.Cowan & B.R.Maslin, *Nuytsia* 10: 249 (1995). The pods of *A. dielsii* are very distinctive and with their exarillate seeds, form the most important characters separating the species from the other members of the group.
